Never before has the world seen such a Princess.

Nor have her own subjects, for that matter. But Genovian politics are nothing next to Mia's real troubles. Between canceled dates with her long-sought-after royal consort, a second semester of the dreaded Algebra, more princess lessons from Grandmère, and the inability to stop gnawing on her fingernails, isn't there anything Mia is good at besides inheriting an unwanted royal title?

### Amazon.com Review

The fourth volume in Meg Cabot's popular Princess Diaries series, *Princess in Waiting* begins in the tiny country of Genovia, where 14-year-old Mia, the unlikely royal, is on winter break trying not to bite her fingernails. Being a princess and fighting for the installation of parking meters is tough, when all you really want to do is go back to your regular life in New York City and see your dreamy boyfriend Michael. Of course, Mia is soon back in the city, trying not to fail Algebra II and trying to stay afloat in a sea of self-doubt. Could it be true that she is merely a "massive reject" covered with orange cat hair? For that matter, is finding her missing lucky Queen Amidala underwear as important as finding her secret talent? Mia's frank, funny diary entries range from "Things to Do" lists ("Stop obsessing over whether or not Michael loves you vs. being in love with you"); lists of the valuable lessons of romantic heroines ("3. Elizabeth Bennet from *Pride and Prejudice*: Boys like it when you are smart-alecky."); transcripts of instant-messaging rounds with Michael; to poems ("Like the Millennium Falcon in hyperdrive/ our love will continue to thrive and thrive") and general irrational tirades. Whether or not Mia ever achieves her much-sought-after "self-actualization," teens will enjoy reading her over-the-top, up-to-the-minute-hip diary. (Ages 12 and older) --*Karin Snelson*

### From Publishers Weekly

The fourth in the Princess Diaries by Meg Cabot, *Princess in Waiting*, finds Mia highly respected in Genovia for her fashion sense but criticized for her views on installing parking meters. Her heartthrob keeps canceling their dates, algebra looms, and Grandmere insists upon additional princess lessons due to the parking-meter debacle. What's a royal to do? Ages 12-up.

### From School Library Journal

Grade 6-9-Mia is back in this fourth installment in the series. Breezy diary entries detail her adventures starting on December 21 in Genovia and ending on January 24 in New York City. Bursting with pop-culture references, the narrative bubbles along like a late hour at a slumber party. The events are busy with many trivial pursuits that readers are expected to relate to, but the lack of substance may bore them. While in Genovia, Mia is missing her boyfriend Michael, and must contend with feisty Grandmere, a full diplomatic social schedule, and parking-meter debates. When she returns to school in New York City, she still has to deal with her grandmother, and algebra, and find her missing lucky Queen Amidala underwear. In addition, she must figure out how she can go to a ball that Grandmere is ordering her to attend and still see Michael on the same night. Mia's preoccupation with figuring out what her talent is, which she doesn't recognize as her writing, is so contrived that this protagonist has lost some of her charm. Although the likable characters are intact and girls may enjoy the romance and funny details of life as a 14-year-old princess, this outing is strictly for fans.
